Adrien Prevost

PhD student in applied mathematics — stochastic bandits
Inria Lille – Université de Lille, France
prevostadrien.etude@gmail.com · prevostad.github.io/Site

Education

2024 – **PhD in mathematics, Université de Lille, Inria**
Scool team. Advisors: Odalric-Ambrym Maillard, Timothée Mathieu.
Topic: problem-dependent analysis of stochastic bandits.

2023 – 2024 **MSc Mathematics of Randomness (M2), Université Paris-Saclay**
Statistics and machine learning track.

2022 – 2023 **MSc Jacques Hadamard (M1), Université Paris-Saclay**

2021 – 2022 **BSc Magistère of Mathematics (L3), Université Paris-Saclay**

2018 – 2021 **Classes préparatoires MPSI – MP, Lycée Saint-Exupéry, Mantes-la-Jolie**

Research interests

Stochastic multi-armed bandits and problem-dependent guarantees: lower bounds and asymptotically optimal algorithms, transfer learning, batched bandits.

Publications

- **A. Prevost**, T. Mathieu, O.-A. Maillard. *Asymptotically Optimal Problem-Dependent Bandit Policies for Transfer Learning.* ACML 2025, PMLR 304. arXiv:2509.19098.

Preprints

- **A. Prevost**, T. Mathieu, W. Radji, O.-A. Maillard. *Transfer Learning in Bandits from Unknown Adaptive Policies: Problem-Dependent Lower and Upper Bounds.* 2026. arXiv:2610.21582.

Talks

Dec. 2025 **ACML 2025, Taipei, Taiwan**
Oral presentation and poster.

Service

2026 **Organization committee, EWRL 2026**
19th European Workshop on Reinforcement Learning, Lille, October 5 – 7, 2026. ewrl-org.github.io/ewrl-2026

Internships

2024 (6 months) **Inria Lille**
Bandits exploiting contextual structure in the non-parametric, Huber-outlier setup.
Advisors: Odalric-Ambrym Maillard, Timothée Mathieu.

2022 (2 months) **Laboratoire de Physique des Solides, Université Paris-Saclay**
Comparison of machine learning methods for spectral unmixing. Advisor: Nathalie Brun.

Outreach

- Wikipedia contributor since 2025, mainly on bandit algorithms.

Skills

Computing Python, LaTeX.
Languages French (native), English (fluent).
